Tideway's Fund Selection Process

Tideway Manager Selection

When constructing our portfolios, we use a range of funds managed by independent fund managers. At any one time we employ a number of independent managers to look after capital within the portfolio selected based on some of the following criteria:

- Experience of the manager and surrounding investment team to effectively implement strategy and achieve investment objectives
 - Sufficient level of operational resources to ensure investment strategy can be executed effectively and appropriate safeguarding of assets
 - A focus on portfolio risk with an independent risk management function to work in conjunction with the portfolio manager
 - Transparency of the manager; we prefer to employ managers who provide full access to their portfolio holdings and managers for regular reviews
 - Quality of returns; returns are not viewed in isolation. Risks taken to achieve the returns as well as return attribution are taken into account
 - Although not the primary focus we look for managers who incorporate Environmental, Social and Governance (ESG) criteria into their investment process
 - Total costs associated with the manager's services
 - Managers whose interests are aligned to their clients with personal monies invested in their own strategies is favourable
- The funds are monitored on an ongoing basis with regular reviews and with all the portfolio investment decisions going through Tideway's Investment Committee.**
