

### Lower Risk Fixed Income (B1)

#### Objectives

The Lower Risk Fixed Income (B1) portfolio targets a total real return of 0.5% p.a. after allowing for all fees and inflation with a high level of income yield. The portfolio is designed for those looking to create annual income withdrawals either immediately or in the future with a low appetite for risk.

#### Investment Strategy

The portfolio is invested in a concentrated number of collective funds which will predominantly invest in Credit securities or corporate debt. The portfolio invests more heavily in higher yielding bond funds (subordinated debt) than most typical fixed income portfolios though will typically concentrate holdings either at the short end of the curve or in Investment Grade Credit with the aim of achieving more predictable returns over the medium term (3-5 years).

#### Key Facts

- Initial costs: **nil**
- Forecast average ongoing fund costs: **0.46% p.a.**
- Historic annual portfolio income yield: **3.08% p.a.**
- Inception date: **September 2016**
- Tideway Risk Assessment: **Low**

#### Key Risks

- Investment values and the income they produce can fall as well as rise, your capital is at risk in this portfolio.
- The two main risks of Credit portfolios are Credit risk and interest rate risk. Credit risk is most applicable to those funds which invest in sub investment grade securities whilst interest rate risk is most prevalent to funds with a longer duration. The portfolio contains both funds which invest in sub investment grade and longer duration securities.
- The costs of funds may vary from the stated amount which has been provided by the fund managers.
- Income yields may vary from the quoted amounts which are provided by the fund managers.
- Past returns are no guarantee of future returns.
- All the funds used trade daily, however in severe market conditions individual funds can suspend trading.

■ B - UK Consumer Price Index TR in GB (14.77%)

The value of units can fall as well as rise. Past performance should not be seen as an indication of future performance.

Pricing Spread: Bid-Bid

Data Frequency: Daily

Currency: Pounds Sterling

01/09/2016 - 31/03/2022 Data from FE fund info 2022

## Performance Calculation

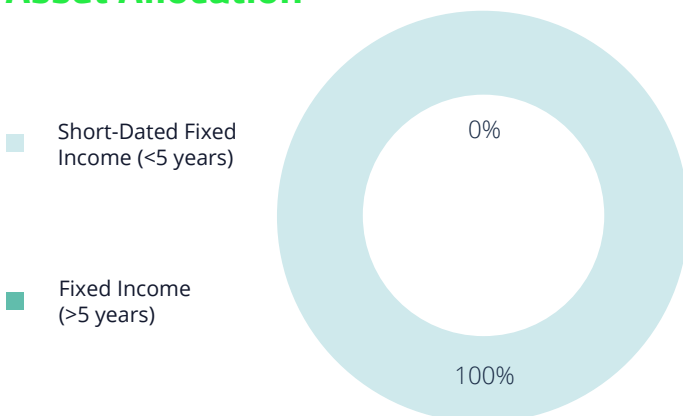

The performance shown is with all income reinvested and after fund costs but does not allow for Tideway's advice and custody charges. At approximately 1% p.a. these will reduce the returns shown by this amount. For further information please ask your Tideway adviser.

Performance is calculated by Financial Express and is for illustrative purposes only and should not be viewed as the return on a specific account. Returns are based on a theoretical model portfolio which each account tracks, but does not take account of cash balances.

Always remember that past performance is no guarantee of future returns and the value of investments and the income they produce can fall as well as rise. Your capital is at risk in this portfolio and you may not get back as much as you invest.

## Portfolio As of 31st March 2022

### Asset Allocation

Data source: Tideway as at 31st March 2022

### Tideway's Asset Allocation Process

Portfolio asset allocation is considered and approved by Tideway's investment committee. Consideration is given to:

- forecast returns and the portfolio's objectives
- diversification of investment strategy and the return outlook and certainty of returns for each asset class
- the portfolios overall risk assessment considering diversification, investment volatility and maximum drawdown

## Tideway's Fund Selection Process

### Tideway Manager Selection

When constructing our portfolios, we use a range of funds managed by independent fund managers. At any one time we employ a number of independent managers to look after capital within the portfolio selected based on some of the following criteria:

- Experience of the manager and surrounding investment team to effectively implement strategy and achieve investment objectives
  - Sufficient level of operational resources to ensure investment strategy can be executed effectively and appropriate safeguarding of assets
  - A focus on portfolio risk with an independent risk management function to work in conjunction with the portfolio manager
  - Transparency of the manager; we prefer to employ managers who provide full access to their portfolio holdings and managers for regular reviews
  - Quality of returns; returns are not viewed in isolation.
- Risks taken to achieve the returns as well as return attribution are taken into account
  - Although not the primary focus we look for managers who incorporate Environmental, Social and Governance (ESG) criteria into their investment process
  - Total costs associated with the manager's services
  - Managers whose interests are aligned to their clients with personal monies invested in their own strategies is favourable

**The funds are monitored on an ongoing basis with regular reviews and with all the portfolio investment decisions going through Tideway's Investment Committee.**
